

## **Good FP ENVIRONMENTAL CHECKLIST**

*(4-19-04 DRAFT)*

### ***Purpose of Checklist:***

The State Environmental Policy Act (SEPA), Chapter 43.21 RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

### ***Instructions for Applicants:***

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring the preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the question from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply". Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe the your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or to provide additional information reasonably related to determining if there may be significant adverse impact.

### ***Use of checklist for nonproject proposals:***

Complete this checklist for nonproject proposals, even though questions may be answered "does not apply." IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (Part D).

For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

### **A. BACKGROUND**

1. Name of proposed project, if applicable:  
**None**
2. Name of applicant:  
**Land Lloyd Development Company**
3. Address and phone number of applicant and contact person:  
**PO Box 3889, Federal Way, WA 98063; Contact Person: Patricia Larson 253-922-0822**
4. Date checklist prepared:  
**August 24, 2004**
5. Agency requesting checklist:  
**DNR**
6. Proposed timing or schedule (including phasing, if applicable):  
**Roads are already on the property and landings are determined, as show on the Activity Map. Harvest is**

**planned for the fall seasons (2004 and 2005). The property will be converted into residential building sites.**

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.  
**No.**
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.  
**None**
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.  
**None**
10. List any government approvals or permits that will be needed for your proposal, if known.

**Forest Practice Application/Notification (FPA/N)**

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agency may modify this form to include additional specific information on project description.)

**Land Lloyd Development Company is applying for a FPA/N through DNR for an even-aged harvest of trees. This is a conversion to develop vacant residential property.**

12. Location of proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographical map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any applications related to this checklist.

**The properties are located in Township 20, Range 14, Section 02 (see FPA for parcel numbers, legal descriptions and topographic maps).**

*19 C.M.*

**B. ENVIRONMENTAL ELEMENTS**

1. Earth

- a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountains, other \_\_\_\_\_.
- b. What is the steepest slope on the site (approximate percent slope)?  
Approximately 35%
- c. What general types of soils (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.  
**Soils are Volperie Ashy Sandy Loam.**
- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.  
**None noted**
- e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.  
**Filling or grading is not proposed in the FPA/N.**
- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.  
**No.**

- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

**The FPA/N activities and development through the conversion process will not create any impervious surfaces.**

- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

**Ditching with check dams will provide erosion control.**

2. Air

- a. What types of emissions to the air would result from this proposal (i.e. dust, automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

**Slash burning and road dust from hauling.**

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

**Does not apply**

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

**Road watering will control dust.**

3. Water

- a. Surface:

1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

**Peterson Creek is shown to the north of parcel 19-14-02020-0014. It runs along Fowler Creek Road.**

2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

**No.**

3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of the fill material.

**None.**

4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

**No.**

5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

**No.**

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

**No.**

- b. Ground:

1) Will groundwater be withdrawn, or will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

**No.**

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals . . . ; agricultural; etc.). Describe the general size of the system, the number such systems, the number of houses to be served ( if applicable), or the number animals

or humans the system(s) are expected to serve.  
**None.**

c. Water Runoff (including storm water):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities if known). Where will this water flow? Will this water flow into other waters? If so, describe.  
**Runoff would include storm water which will be controlled by ditching with check dams until the water infiltrates into the soil.**

2) Could waste material enter ground or surface waters? If so, generally describe.  
**No.**

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:  
**See above.**

4. Plants

a. Check or circle types of vegetation found on the site:

x\_\_ deciduous tree: alder, maple, aspen, other

x\_\_ evergreen tree: fir, cedar, pine, other

x\_\_ shrubs

x\_\_ grass

x\_\_ pasture

\_\_ crop or grain

\_\_ wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other

\_\_ water plants: water lily, eelgrass, milfoil, other

\_\_ other types of vegetation

b. What kind and amount of vegetation will be removed or altered?  
**The type of harvest will be even aged.**

c. List threatened or endangered species known to be on or near the site.  
**None.**

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:  
**None.**

5. Animals

a. Circle any birds and animals, which have been observed on or near the site or are known to be on or near the site:

birds: hawk, heron, eagle, songbirds, other: lays, ravens, crows

mammals: deer, bear, elk, beaver, other: bobcat

fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened or endangered species known to be on or near the site.  
**None.**

c. Is the site part of a migration route? If so, explain.  
**No.**

d. Proposed measures to preserve or enhance wildlife, if any:  
**Retain snags and windfalls.**

6. Energy and Natural Resources

- a. What kinds of energy (electrical, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.  
**No energy will be needed until homes are built. (It is planned that homes will use electrical energy)**
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.  
**No**
- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:  
**Does not apply**

7. Environmental Health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.  
**There are potential health hazards while operating or working around heavy equipment, log decks, log loaders and log trucks. Diesel fuel will be used in the equipment, so there is a possibility of minor oil or fuel spills or leaks.**
- 1) Describe any emergency services that might be required.  
**Fire suppression resources may be needed, or emergency medical or air ambulance may be needed. Hazardous spills may require DOE or county assistance.**
- 2) Propose measures to reduce or control environmental health hazards, if any:  
**Fire and safety law enforcement already exists. Immediate notification of authorities (Ecology or DOH) in case of spills. Hard hats, fire extinguishers and other safety equipment as required will be used.**
- b. Noise
- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?  
**Does not apply.**
- 2) What types and levels of noise would be created by or associated with the project on a short-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.  
**Periodically there will be noise from the equipment used for logging. Logging is planned to take place for the fall season.**
- 3) Proposed measures to reduce or control noise impacts, if any:  
**Logging will only take place during daylight hours.**

8. Land and Shoreline Use

- a. What is the current use of the site and adjacent properties?  
**Current use of the site is Forestry. Some adjacent properties have been logged for building sites; most are forestry.**
- b. Has the site been used for agriculture? If so, describe.  
**Most of the site has always been forested. The lower northeast properties were used for agriculture at one time and are now pasture.**
- c. Describe any structures on the site. **None.**

- d. Will any structures be demolished? If so, what?  
**No.**
- e. What is the current zoning classification of the site?  
**R-3**
- f. What is the current comprehensive plan designation of the site?  
**Rural**
- g. If applicable, what is the current shoreline master program designation of the site?  
**None.**
- h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.  
**No.**
- i. Approximately how many people would reside or work in the completed project?  
**Does not apply. This proposal is to log and develop the site.**
- j. Approximately how many people would the completed project displace?  
**None**
- k. Proposed measures to avoid or reduce displacement impacts, if any:  
**Does not apply.**
- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:  
**None.**

9. Housing

- a. Approximately how many units would be provided, if any? Indicate whether high, middle or low-income housing.  
**Does not apply. This proposal does not include building housing units.**
- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.  
**None.**
- c. Proposed measures to reduce or control housing impacts, if any:  
**Does not apply.**

10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?  
**No structures are proposed.**
- b. What views in the immediate vicinity would be altered or obstructed?  
**None.**
- c. Proposed measures to reduce or control aesthetic impacts, if any:  
**Does not apply.**

11. Light and Glare

- a. What kind of light or glare will the proposal produce? What time of day would it mainly occur?  
**None.**

- b. Could light or glare from the finished project be a safety hazard or interfere with views?  
**No.**
- c. What existing off-site sources of light or glare may affect your proposal?  
**None.**
- d. Proposed measures to reduce or control light and glare impacts, if any:  
**None.**

12. Recreation

- a. What designated and informal recreation opportunities are in the immediate vicinity?  
**None.**
- b. Would the proposed project displace any existing recreational uses? If so, describe.  
**No.**
- c. Proposed measures to reduce or control impacts on recreation, including recreational opportunities to be provided by the project or applicant, if any:  
**None.**

13. Historic and Cultural Preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.  
**No.**
- b. Generally describe any landmarks or evidence of historic, archeological, scientific, or cultural importance known to be on or next to the site.  
**None known.**
- c. Proposed measures to reduce or control impacts, if any:  
**Does not apply.**

14. Transportation

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans if any.  
**Fowler Creek Road accesses the property. No new access is proposed.**
- b. Is the site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?  
**No. Does not apply.**
- c. How many parking spaces would the completed project have? How many would the project eliminate?  
**Does not apply.**
- d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).  
**No.**
- e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.  
**No.**
- f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.  
**Does not apply.**

- g. Proposed measures to reduce or control transportation impacts, if any:  
**Does not apply.**

15. Public Services

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.  
**No.**

- b. Proposed measures to reduce or control direct impacts on public services, if any.  
**None.**

16. Utilities

- a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.
- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.  
**N/A**

C. SIGNATURE

The above answers are ~~true and~~ complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.
